

High-profile accolade for EREMA Group CEO

Manfred Hackl is Plastics Recycling Ambassador of the Year

Ansfelden, 15 May 2023 - Manfred Hackl, CEO of EREMA Group GmbH, was recently awarded the accolade *Plastics Recycling Ambassador of the Year* at the Plastics Recycling Show Europe. The award is given in honour of personalities who are particularly committed to plastics recycling.

Manfred Hackl has been with EREMA since 1995 and, prior to joining the management team, was responsible for the product development and market launch of VACUREMA technology that closed the loop in the bottle-to-bottle segment efficiently and cost effectively. In his current role as CEO of the EREMA Group and in various roles in well-known national and international associations he promotes plastics recycling and circular economy across the industry, regionally and throughout Europe - especially at EU level - encouraging everybody in the industry to work together.

"I dedicate the *Recycling Ambassador of the Year* award to the employees at the EREMA Group. This year we are celebrating our 40th anniversary, and this award, just like the many we have received for our technologies over the years, shows that we can be very proud of what we have accomplished and achieved together during this time," says Manfred Hackl, delighted with the award. In the past business year 2022/23 alone, the extruders supplied by the companies within the EREMA Group deliver an additional 1.6 million tonnes of recycling capacity.

EREMA Group
Another life for plastic. Because we care.

Based in Ansfelden near Linz in Austria, EREMA Group is the world's leading manufacturer of plastics recycling solutions. With their companies EREMA, 3S, PURE LOOP, UMAC, PLASMAC, KEYCYCLE and PLASTICPRENEUR, they cover the entire spectrum of mechanical plastics recycling - from planning and engineering through to developing and manufacturing recycling technologies as well as producing system components and trading previously owned systems. These recycling solutions are currently operating in 108 countries worldwide and recycle approximately 20 million tonnes of plastic every year.
